Your personal "Mini"

Protect you and your home

We are dedicated to improving quality of life by eliminating harmful Bacteria in the environments everywhere you go, with our patented, breakthrough technologies in probiotics. The "Mini" protects you on the go, at work, visiting someone in the hospital, at church, or at the grocery store.

Call us at: 941-465-9347

Refillable and Re-Chargable too!

THE PROBLEM

People spend up to 90 per cent of their time indoors – at home, school and work.

Poor indoor air quality may cause headaches, tiredness, coughing, sneezing, sinus congestion, shortness of breath, dizziness and nausea.

It can irritate the skin, eyes, nose or throat. Allergy or asthma symptoms could get worse. Poor indoor air quality is caused by indoor air pollution.

Indoor air contains whatever pollution you have outside, plus whatever you are adding inside a building, like cooking and fumes from cleaning products and building materials.

Also, the effectiveness of general cleaning is limited by the presence of out-of-reach surfaces and breeding grounds for harmful micro-organisms.

Now You can protect yourself everywhere with the "Mini" !

Ask about our whole house unit too.

New~Gen Biotics IS THE SOLUTION

New~Gen Biotics uses probiotics to fight bacteria, viruses, and mold.

Probiotics starve the allergens, making it harder for them to survive and the result is cleaner air and dramatically reduced causes of allergies, allergy symptoms, and odors!

New~Gen Biotic Purifiers are energy efficient, low maintenance and easy to use. They safely nourish air, objects, and surfaces by disbursing a microscopic protective layer of probiotics.

Invented, and developed in America, New~Gen Biotics automatic delivery system technology which uses a probiotic formula solution specifically designed to help fight harmful allergens - causing illnesses and odors, safely and effectively.

New~Gen Biotics distributors partner with people who want to enjoy better health and productive lives, for themselves, friends, family, and pets.

THE BENEFITS

- All Natural
- Biodegradable
- 100% Organic
- No Chemicals
- No Additives
- Reduces Allergens
